Accent Neutralization Program

Learn to speak clear, confident English that everyone around the world can understand — no matter where you are from.

"Speak Clearly. Sound Confident. Be Globally Understood."

Have you ever felt nervous while speaking English? Do people ask you to repeat yourself? Do you feel your regional accent is coming in the way of your success at work or in interviews? You are not alone — and this is exactly why GroomX created the **Accent Neutralization Program**.

This course is designed to help you reduce **Mother Tongue Influence (MTI)** — which means the way your first language affects how you speak English. When you speak English with a very strong regional accent, it can sometimes be hard for others to understand you, especially in professional or global settings.

Our expert trainers at GroomX Finishing Academy will guide you step by step. You will learn how to form sounds correctly, speak at the right speed, and use the right tone and rhythm when you talk. By the end of this program, you will feel more confident, sound more professional, and communicate clearly in any situation.

Why Choose This Course

Improve clarity and pronunciation

Learn to say each English word the right way so people understand you the first time you speak.

Reduce regional accent influence

Gently reduce the effect your mother tongue has on your English so you sound more neutral and clear.

Build speaking confidence

Stop feeling shy or nervous. Practice in a safe, friendly environment until speaking feels natural.

Enhance professional communication

Speak better in meetings, interviews, presentations, and with international clients or colleagues.

Get personalized feedback

Your trainer will listen to you carefully and give you specific tips that are made just for you.

Track your progress

You will clearly see and hear your own improvement from the very first week of training.

What You Will Learn — Module Outline

This program has 10 carefully designed modules. Each module builds on the previous one, so you learn step by step in the right order.

1 Basics of English grammar

Many people make mistakes in English because they first think in their mother tongue and then translate it. This module teaches you to think directly in English and avoid those common translation errors.

2 Vowel pronunciation — correct sound formation

English has many vowel sounds that do not exist in Indian languages. You will learn exactly how to move your lips, teeth, and tongue to produce each vowel sound clearly and correctly.

3 Consonant articulation — improving clarity

Sounds like V vs W, B vs P, or TH sounds can be tricky. This module gives you simple exercises to make every consonant sound sharp and easy to hear.

4 Understanding and reducing Mother Tongue Influence (MTI)

MTI is when your first language changes the way you speak English. You will learn what MTI is, how it affects your speech, and simple daily techniques to reduce it.

5 Diction, pronunciation and phonetics

Phonetics is the science of sounds. You will learn the International Phonetic Alphabet (IPA) basics so you can look up any word in the dictionary and know exactly how to say it correctly.

6 Rate of speech — pauses and fluency control

Speaking too fast or too slow can confuse people. This module teaches you the right speed for different situations and how to use pauses effectively.

7 Stress patterns in speech

In English, some syllables in a word are said louder and longer than others. Getting stress wrong can change the meaning of a word. You will learn which part of each word to stress.

8

Rhythm and intonation for natural speaking

English has a music-like rise and fall when people speak. This rhythm and intonation is what makes English sound natural and engaging. You will practice this until it becomes a natural habit.

9

Practice sessions for voice neutralization

Practice makes perfect. These hands-on sessions let you use everything you have learned in real-life speaking situations — from reading aloud to role-playing conversations and group discussions.

10

Review and personalized feedback

Your trainer will review your full journey. You will get a detailed personal report with your strengths, areas to keep working on, and a custom action plan to continue improving after the course.

What Will You Be Able To Do After This Course?

✓ Speak English clearly in job interviews

✓ Communicate confidently with foreign clients

✓ Present in office meetings without fear

✓ Be understood on phone and video calls

✓ Sound professional in customer-facing roles

✓ Use correct stress, rhythm and intonation

✓ Say difficult English words correctly

✓ Stop translating from mother tongue

Working professionals

People who work in offices, with clients, or in customer service and want to sound more professional.

Students and freshers

College students and freshers preparing for placements, group discussions, and job interviews.

Anyone who wants to improve

If you feel your accent is a barrier to being understood clearly, this course is made for you.

Frequently Asked Questions

Do I need to know a lot of English before joining?

No! This course is for anyone who speaks some English but wants to sound clearer. You do not need to be an expert. Our trainers will start from your current level and help you improve step by step.

How long does the course take?

The duration depends on your current level and goals. Our trainers will discuss the best schedule for you when you enquire. Most students see a noticeable improvement within a few weeks of regular practice.

Will my accent completely change?

The goal is not to erase your identity. The aim is to make your English clear, neutral, and easy for everyone to understand. Your unique personality always stays — we just help you communicate better.
